

“UNREAL” will be “REAL”

By HIROYASU NAGAKUBO, KANO NAKAGUKI, AND HARUTO TOYOKAWA

We can play sports well. And we are smart.

Do you know a perfect person who can study hard and play sports well? And is he or she very kind to everyone? Maybe you think such a person is “unreal.”

But, there are many people like that in this school.

For example, the best track and field athletes in Aomori Prefecture.

And the highest level of handball club in the whole country.

Study aspect: We study very fast. Some of our classes are taught by high school teachers.

And we can take many exams to practice for college exams.

Personality aspect: We can grow up through some events.

So, our school can make the “impossible,” “possible.”

This school was founded in 2007. In 2016, this school had its ten-year anniversary ceremony.

And this year, it has celebrated 13 years.

There are 238 students now in this school.

We are living together with high school students in the same school building.

THE FICTIONAL WORLD

By KOKORO KAWAKAMI, MANAKA SATOU, AND SHIHO MURAI

This time the theme of the school festival is “Unreal.” So we thought about what unreal is and this article is about that. What do you think about “unreal”? This time three people answered.

“Unreal” is not “Real,” one student says. Talking of unreal, she imagines that we can use power. For example, there are “at all tests we can get a perfect score” power and “eternal life” power. If it was like that world, we might be able to enjoy our school life every day. In the classroom, if there are people who can use supernatural powers and magic, it would be interesting.

The one student wants to get supernatural power. However, in this world she thinks people have their own powers. “Helping people” power, “curing people” power, “encouraging people” power, and so on. We all have our powers. It may be a little different. It may be rather different. But there are no two people who have the same power. When all the

powers gather, big power is born. So she thinks this world is unreal.

Another girl thinks that “Unreal” is not usual. The school that they are studying and doing club activities in changes for the festival. They are looking forward to it. They write an English newspaper together. But it is so difficult. However, when they can finish writing, they can feel an achievement. They are taught important things by the “unreal.” When unreal changes to real, she wants to make use of things which she learns in the “unreal.”

A boy wants to go back a few years ago and wants to live there. He has a few reasons. At first, if the world develops more, he thinks more and more bad things will happen. For example, global warming is going to grow and people will be taken over by robots. Do

the scientists understand the risk? He guesses the recent scientists are too selfish. As for them, maybe they only think of their own profit? An A-bomb and dynamite were virtually created in that way, too. Secondly, he wants to change the flow of history. After he can do it, he wants to come back to now. Nowadays, peace is about to collapse in various countries. If he goes back to the past, he can work on the countries and wants to cross arms.

Unreal is an impractical world and people can imagine anything. Imagination is infinite. We ask you again: When you hear unreal, what world do you think about?

It's a wonderful "unreal" world.

Fuzoku's Special Events

By HANA SAKAOKA, MAO KUDO, AND TORU MASUDA

English Camp

Our school has a lot of special events.

English Camp is one of the special events in Fuzoku.

We can communicate with some unique teachers.

Each team can enjoy some games and make a presentation. It is difficult but we love English Camp!

We can make friends with some ALTs. We have a lot of happy memories of English Camp.

If you are interested in Fuzoku, come and enjoy English Camp with everyone!

School Festival Preparations

Sports Day

Sports Day is one of the many fun events. Fuzoku junior high school students have only held it.

This year, it was the third time. It evolves

every year. The students cheered really hard for their team. Their cheers are very lively.

Also, they practice for Sports Day really hard. So, they sometimes quarrel. But, they did their best to the end.

So, my school's Sports Day was very nice. I think that this Sports Day has become a good memory for us.

School Festival

The school festival is one of the biggest events in "Fuzoku."

It is different from other schools' festivals.

First, we are holding it with high school students.

Sports Day

There are food stalls and a school cafeteria, too.

Because usually we can eat a hot, good lunch.

Second, we made this English newspaper.

So various people can enjoy it.

Third, we share the school with high school students.

Because the scale is big, we can experience very interesting science experiments.

As I have said, our school festival is a good one.

Please come again next year!!

The School Cafeteria

We hurry to the cafeteria after fourth class' ending bell. The most popular food is curry bread. It is sold out quickly. Even if I go there very fast, I can't buy it. It

is very popular with high school students too. But, other foods are very yummy, too.

The cafeteria's foods are brand-new. The school store's foods are many kinds. The school cafeteria is seldom open to us. So, I want to go there many times.

The Chorus Contest

We have a chorus contest in November. Each class practices for a long time.

Everyone wants to get first prize. But, it's difficult. So, everyone practices hard every day.

For the chorus contest we can join together. All the students in Fuzoku are going to sing "COSMOS."

It's very impressive. We are singing the song in the Culture Center in Towada.

If you come to our chorus contest, you can be impressed.

Forest Environment Field Trip

Forest Environment

We have been to a Forest environment to learn. Seventh graders go to the "Sanbongi Living Dream Forest."

There is very wonderful nature we can learn about.

Eighth graders go to "Oirase Gorge." There are rare plants.

It was comfortable and the air was clear.

I felt the magnificent nature.

Ninth graders go to "Tsutayacho Forest."

The almost extinct beech's descendants are in there.

Also, we can see frogs.

Chorus Contest

Explanation of Clubs

By SOTA OTTOMO, SAKURA NOZUKI, AND RYUGO SUZUKI

Here is an explanation of our clubs. We interviewed the heads of each club. Please look at these interviews.

1. Charming Points
2. Character
3. Message

Track and Field Club

Head of club:

Sota Ottomo

1. If you have never done exercise, we will celebrate you.
2. We are usually serious, but we are always bad.
3. We have few boys, so we want a lot of boys.

Boys' Soft Tennis Club

Head of club:

Hiromu Kudo

1. We always try hard. .
2. We are usually

Soccer Club

serious, but we are sometimes bad.

1. Flying (23.8%) 2. Running fast (15.8%) 3. Good eyesight (4.6%)

Q8. If you could live again, what would you want to be?

1. A human (35%) 2. A boy (6.3%)
3. A cat (4.6%)

An Interview with Mr. Norita

By CHIHIRO OGASAWARA, CHIKA HASHIMOTO, AND KAZUMA TAKAHASHI

1. Q. What is your impression of Fuzoku junior high school?

A. Fuzoku junior high school doesn't have many students, but the students have various capacities among the few students.

They are exercising those capacities in different places. And, students are eager about classes much more than other schools.

2. Q. What do you want to be born again as?

A. A dinosaur. I want to become a dinosaur and enter the old world freely. I want to go.

3. Q. What do you wish you had?

A. I want time and more space for the junior high school students. Because these are needed things.

4. Q. Suppose you have only one supernatural power, what do you want it to be?

A. I want the supernatural power to cure any injury at once.

5. Q. What club did you join when you were a junior high school student?

A. I joined a basketball club. The practice was very hard, but I enjoyed basketball. I still keep in touch with members of the team.

6. Q. What did you want to be in the future when you were a junior high school student?

A. I hadn't decided my dream when I was a junior high school student. PCs began to spread when I was a high school student. A lot of students wanted to become programmers and system engineers. I was interested in those jobs and entered the university to study about information technology.

About 30% of them become teachers. I thought I wanted to be a teacher, too.

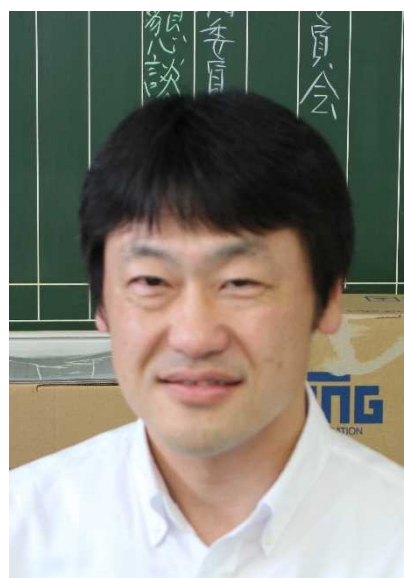

Nobody knows what will happen in our lives, study various things to open up possibilities for your future.

I want you to set a goal and to be able to do a lot of things.

7. Q. Please give a message for anyone who wants to enter Fuzoku junior high school in the future.

A. It is true about studying hard, but it is based not only on studying, but on what to do as human beings.

I hope you can spend every day thinking about this.

Mr. Ikuto Norita, Vice-Principal at Fuzoku Junior High School

A Cat's Life
